## 5 Recommendation

Based on the metrics above, we recommend this portfolio for a **moderately aggressive investor**.

- Expected annual return (CAGR): 30.53%
- Risk-adjusted return (Sharpe): 1.23
- Maximum historical loss (Max Drawdown): -25.79%
- Annualized Volatility: 20.31%

Alternative scenarios (e.g., max Sharpe portfolio or min volatility portfolio) can be provided if desired.
